NOTES AND NEWS

CLAY CONFERENCES OVERSEAS

AMONG the scientific meetings to be held overseas, the following will be of especial interest to our readers because of their relevance to clay minerals.

(1) International Congress of Soil Science. August 6–16, 1968. Adelaide, Australia.

(2). International Geological Congress. August 19–28, 1968. Prague, Czechoslovakia.

(3) International Mineralogical Association General Meeting. August 30–September 3, 1968. Prague, Czechoslovakia. Includes special symposium on sheet silicates.

(4) British Ceramic Society Meeting on "Mineralogy and Crystallography of Ceramics". September 11–13, 1968. Cambridge, England.

(5) Clay minerals Group of the Mineralogical Society Meeting on "Infra-red Studies of Clay Minerals". Autumn, 1968. London, England.

(6) International Clay Conference. September 5–10, 1969, followed by field trips September 11–15. Tokyo, Japan.

REFERENCES TO CLAYS AND CLAY MINERALS

Volumes 1–15 of this series were issued at irregular intervals as Proceedings Volumes of the Annual Clay Conferences. Volume 16 and following are in journal format, commencing at bimonthly intervals in January 1968. In order to standardize references to articles published in these volumes, it is recommended that the volume number be taken as that of the Annual Clay Conference but that the date be that of actual publication. It is further recommended during a transition period of three years that the publisher be listed in brackets following the reference details. After 1970 the information listed in brackets can be discontinued. A recommended reference format follows for each volume in sequence.
