### MANUSCRIPT REVIEWS

During the past two years the Editor has relied heavily on the critical reviews of the Associate Editors, to whom he expresses his appreciation for a job well done. As a result of the transition to a journal publication and a correspondingly heavier volume of manuscripts, increasing usage has been made also of qualified reviewers outside the Board of Editors. The Editor wishes to thank the following people for their reviews of manuscripts for Volumes 16 and 17.

J. L. Ahlrichs	W. L. Haden, Jr.
R. A. Arnott	J. Hower
W. F. Bradley	M. L. Jackson
